AIXAM PRO

AIXAM PRO has been designed to accompany you in your professional activity, whatever your business, with or without a licence. With its D-TRUCK (diesel) and e-TRUCK (100% electric) versions, AIXAM PRO offers a range of models to meet all, benefitting from all the expertise of the leader in licence-free compact commercial vehicles.

COLOURS AVAILABLE

ADVANTAGES + D-TRUCK

- 50% of the surface of the vehicle dedicated to professional use
- Low loading platform
- A spacious storage compartment under the platform
- Easy access thanks to a seat height 760 mm from the ground
- Reinforced cab and doors to maximise safety
- A spacious cab with a flat floor
- Excellent visibility thanks to the panoramic windscreen

2.8 M³

Load capacity inside the van

2 M²

Loading surface on the platform

ADVANTAGES + e-TRUCK

- Maximum torque available as soon as the vehicle is started for instant and easy handling
- Simplified maintenance
- 0% noise pollution
- 100 km autonomy under real conditions* and 130 km over cycle**
- 3hrs 40min for a complete recharge from a 220 V domestic plug
- 1 hour of charge time = 20 km autonomy
- approximately €1 per 100 km for electrical charging

* Average battery life observed on standard route. Several factors may adversely impact this value.
** According to EU 134/2014*2016/1824 regulation.

e-TRUCK

THE ONLY LICENCE-FREE COMPACT LIGHT COMMERCIAL VEHICLE AND 100% ELECTRIC

The 100% electric version of D-TRUCK, e-TRUCK, is environmentally-friendly, ergonomic, safe and the most compact yet.

The e-Truck has the same dimensions and volume as the D-Truck providing a significant loading area and a spacious, comfortable and ergonomic cab. Available in 2 configurations; van or drop-side.

SPACIOUS AND ERGONOMIC CABIN FOR OPTIMUM COMFORT

The dashboard is a perfect combination of ergonomic controls and quality equipment. The instrument panel features a needle gauge controlled by a stepper motor that allows easy and accurate reading of the remaining energy level.

Available on the van version, the reversing camera with its 5» screen provides better visibility when manoeuvring and represents a significant safety advantage.

TARGETTED OPTIONS

FOR YOUR ACTIVITY

- Trailer hitch
- Reflecting tapes
- Warning triangle + 2 beacon LED lights
- Rear protection bars
- Side protection bars
- LED flash
- Cab grid
- Drop-down meshed sides
- Glazed rear door

FOR YOUR COMFORT

- MP3/RDS/USB radio without CD player
- Electric windows

FOR YOUR SAFETY

- NEW**
- Spare wheel
 - Reverse bipper
 - Rear view camera, 5» screen (Van only)

* For details of the options available on D-Truck, E-Truck ranges and Minauto Utility Cross, please contact your AIXAM dealer.

SAFETY IS OUR PRIORITY

It is integral to the production process, from the technical design phase to the selection of the high-tech parts and materials. AIXAM is also the first licence-free vehicle manufacturer to submit their range to crash testing.

AIXAM EXCLUSIVITY

And for maximum safety, AIXAM offers an ABS* option. ABS prevents wheel locking under emergency braking; Control over your trajectory, limited loss of traction regardless of the weather conditions.

42

01 ROOF RAIL SECTION

Its specific design, adapted to the vehicle, allows the windscreen and roof to be bonded directly to the structure, increasing body rigidity and improving occupant protection.

02 DOOR REINFORCEMENTS

Bars protect vehicle occupants against side impacts.

03 SIDE MEMBERS

The sill panels are reinforced to prevent body shell deformation, thus creating a secure cell to protect the occupants.

04 LARGE WING MIRRORS

The large mirrors are curved to minimise blind spots. The integrated indicators increase safety during manoeuvres.

05 CENTRAL TUNNEL

Reinforces the chassis and protects the occupants.

06 DIAGONAL BRAKING SYSTEM

This system provides the best stability and safety on the market. The rigid hose braking system requires less force on the brake pedal.

07 HIGH-STRENGTH STEEL SUBFRAME

The front subframe and pillars are made of high-strength steel for maximum resistance and protection of occupants while reducing the mass.

08 COLOUR-INGRAINED BODYWORK

The thermoformed bodywork absorbs energy from minor impacts.

09 PANORAMIC VISION

The large windows offer exceptional visibility and avoid blind spots.

10 SAFETY BELTS

The safety belts are tested at full load under a traction force of 5.4 tonnes, twice that required by law (2.7 tonnes). This testing equates to 36 times the average weight of each occupant.

* Depending on model

100% ELECTRIC

AIXAM DEVELOPS LICENCE-FREE VEHICLE RANGES THAT ARE 100% "MADE IN FRANCE", OFFERING BOTH DIESEL ENGINES AND 100% ELECTRIC SOLUTIONS.

AIXAM is the first manufacturer of Licence-Free Vehicles to offer an electric range.

3hrs 40 mins to fully charge

DRIVING PLEASURE

Whether electric or diesel, our powerful engines guarantee simple and dynamic handling.

OR DIESEL ENGINE

Engines, aerodynamic efficiency, recycling,... Respect for the environment is a major concern at AIXAM. Whether fuel-efficient diesel or 100% electric, each engine is a reference in terms of emission control; the diesel-powered vehicles generate only 80 g/km CO₂ (3.1 l/100 km). Aerodynamic efficiency also plays a role in this commitment to the environment, which culminates in recycling and the processing of waste as each AIXAM vehicle is virtually 100% recyclable.

The most ecological and economical engine on the market.

Kubota Euro 5 engine

43

B7

TYPE CARBURANT
DIESEL B7

You can drive from the age of 14!

Driving an AIXAM guarantees you mobility, independence and freedom from the age of 14, with a provisional licence obtained from a driving school.

A great way to be independent, driving an AIXAM gives you experience, allowing you to practise and prepare for your driving test.

And many more advantages

We are always connected

Bluetooth connection, touch screen tablet compatible with Android Auto or Apple Car Play... thanks to its on-board technology, I am always connected with my friends!

We can crank up the volume

As for the sounds, there's just one word: massive! Door-mounted speakers, Aixam Concert 6-speaker package with woofers, tweeters and subwoofers, a Pioneer amplified subwoofer... Almost as good as a live concert!

We put safety first

For my AIXAM, I've opted for ABS. The trajectories are controlled and skidding minimised, whatever the weather conditions. And that's good to know!

We like our comfort

Rain, wind, cold... No thanks! A stylish interior with comfortable seats, electric windows, heating, air conditioning,... That's comfort, AIXAM-style. I love it and so do my friends!

We are free

Forget having to ask my parents to pick me up in the middle of the night or take me to see my friends in town! I can come and go as I please. I no longer have to rely my parents, I take care of myself!

EVERYONE HAS A GOOD REASON TO CHOOSE A LICENCE-FREE AIXAM!

We save time

Get up at 5 am to catch the bus or stay in bed longer? The choice is obvious. And with AIXAM, I no longer have to wait. I can leave whenever I choose.

We are responsible

Driving a no-licence car still means that you have to learn how to drive! Once you have completed the theory element at school, you must take 8 hours of practical training in a driving school. There aren't even any exams to take... Hello freedom!

We have room

Sports, hobbies, holidays... I always have loads of stuff to cart around! So much better than a top case, the boot of my AIXAM is so big that I don't have to think about what I can take with me. I take the lot!

We are stylish

I choose the colour, finish and options. My AIXAM has a style of its own! It's unique, just like me!

And to reassure your parents...

- Safety is integral to AIXAM from the design phase through to production.
- The parts and materials are sourced from major vehicle manufacturers.
- Better protection than a scooter.
- Travel in safety, regardless of the weather conditions.
- Optional ABS exclusive to AIXAM.
- Superior control and limited risks of skidding, even in difficult weather conditions (rain, snow, black ice...).

myaixam.com

100% MADE IN FRANCE

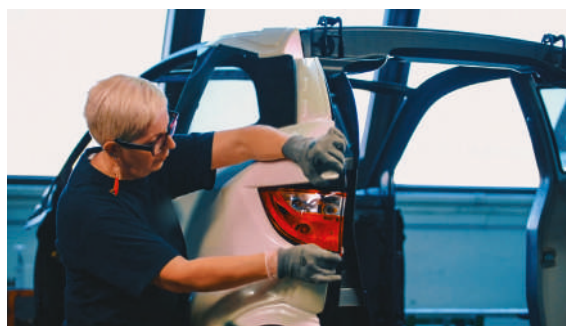

AT AIXAM, INNOVATION IS NOT AN OPTION

It's synonymous with quality, comfort, simplicity and, of course, safety. Fundamental values that make up every one of the 16,000 vehicles produced each year at the AIXAM plants in Aix-Les-Bains and Chanas in the Auvergne Rhône-Alpes region of France. Our vehicles are designed and continually improved to give you control over your mobility.

AIXAM IS PROUD TO DEVELOP AND PROMOTE ITS INDUSTRIAL KNOW-HOW

Our two production sites certify our performance and high technological value: a perfectly mastered and integrated production process from the design phase thorough to manufacturing. Our industrial performance is supplemented by a skilled workforce made up of trained and qualified personnel who design, manufacture, assemble and test all our vehicles supplied throughout Europe.

AIXAM IS THE REFERENCE FOR LICENCE-FREE VEHICLES IN FRANCE AND THROUGHOUT EUROPE, IN ADDITION TO BEING THE UNCONTESTED MARKET LEADER FOR QUADRICYCLES SINCE 1987

THE POWER OF A NETWORK

AIXAM has the best international coverage for licence-free vehicles thanks to our approved dealer network. We provide you with support, advice and services on a daily basis, whether at home or on the road. You can always count on our sales and after-sales network across France and Europe.

SERVICES FOR COMPLETE PEACE OF MIND

AFTER-SALES AND MAINTENANCE SERVICE

The AIXAM network benefits from an After-Sales department that has been optimised to provide quick and effective solutions. We standardise spare parts and, thanks to a permanent stock, we commit to supplying our network in order to guarantee the integrity and long service life of your AIXAM.

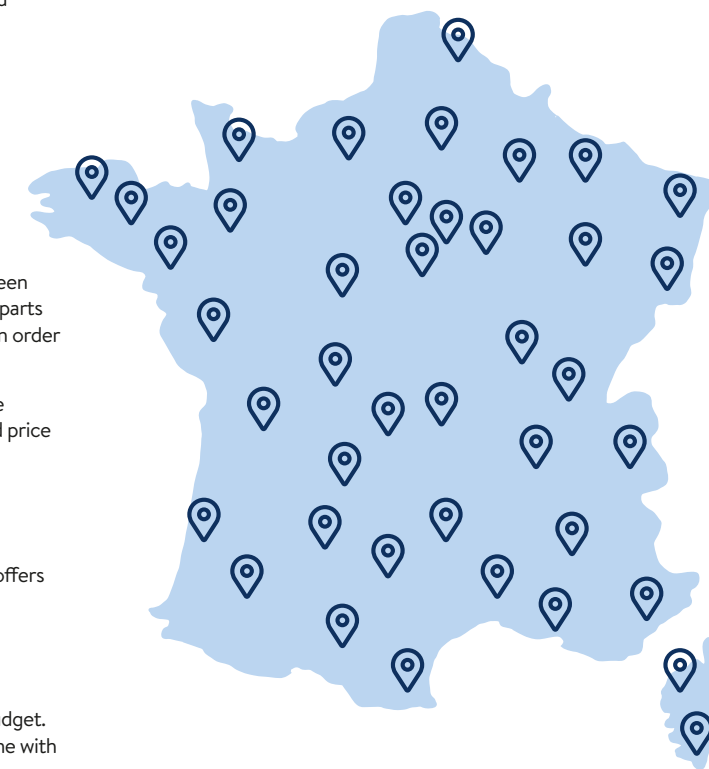

The AIXAM-approved network has the most recent information from the manufacturer relating to repairs and maintenance: quality, lead times and price are therefore guaranteed.

ASSISTANCE AND WARRANTY

AIXAM provides a 2-year parts and labour warranty for our vehicles and offers you 2 years of breakdown assistance with unlimited mileage.

FINANCE OPTIONS

Thanks to our partners, AIXAM is able to offer solutions suited to your budget. Your dealer will look into the best financing options with you, strictly in line with your requirements and resources.
